PROJECTS

🌤️ Advanced Weather Dashboard

Vue 3 | JavaScript | CSS3 | 2025

🔗 View Project

kaingbunly.site

- Integrated weather API with real-time city search functionality.
- Built dynamic UI using Vue 3 components for a smooth, responsive user experience.
- Optimized API calls, reducing unnecessary re-renders for faster data loading.
- Styled with CSS3, following a clean, modern look with Poppins font and blue-gray theme.

Portfolio Platform

HTML5 | CSS Grid | JavaScript | 2025
